MR. "HONEST MONEY."

Hero of the Pie Counter Still Refuses to Disclose His Name.

THE JOURNAL has not space today to print the reply of "Honest Money" to our demand that he come out over his real signature in his newspaper articles. When he writes for the Oregonian he signs his name, he probably considers that an honor, would not lose and the honor of publicity in the Salem paper one he does not covet.

"Honest Money" is none other than the hero of the pie counter. He has been himself away completely by his public and street talk, and by an unrecognizable literary style that he cannot lay aside any more than he can his handsome straightforward appearance. We shall not designate him by name, as he seems to fear his own name in print.

"Honest Money" is no doubt an honest man. His continual assertions that others lack in morality and common honesty establishes his qualities in this respect. He is no doubt a good man and his usefulness in some respects cannot be disputed. Has he been very serviceable to the old politicians? Have they not been able to rely on him on all occasions?

It is plain, "honest money" will not come out over his signature like a man. He is the Moses of the goldbugs. He has been put forward by them to seek personal quarrel with the editor of the JOURNAL, to obscure the real issue, just as the same crowd he works for put a handsome man forward to secure the real issue in the late legislative contest in this county. But it will not work. This is a contest of principle and "honest money," and he will be driven off his favorite field of history and monetary science. He will be driven off his favorite field of personal abuse, not that he cannot have enough personalities if he insists on it.

You need not worry about bimetallics not defining their position on the money question. In the campaign of 1890 the Republican party of Oregon made free coinage of silver at 16 to 1 an equal terms with gold its platform. It was an honest expression of an unassailable position, and the Republican party has not since abandoned that principle in Oregon, nor has it endorsed the single gold stand-

ard, though asked to do so by Mr. Dolph, and Claud Gatch of Salem as minority member of the 1896 platform committee. If you were an honest man in politics you would stand by the people of Oregon, instead of running after the false gods of the trusts, corporations and English money syndicates, that have overridden the better judgment of the party in the St. Louis gold platform.

Although not proud of our personal appearance, we cannot forego copying this argument of "Honest Money."

I do not believe in general wickedness; there is no gainsaying the fact that the conspicuous absence of that radiant physiognomy, with its accompanying "Risus Sardonius," and sinister squint, would be more than comforting to many self-respecting citizens.

Any man who refuses to sell his soul to the old Simon ring and the gold monopolists is undoubtedly wicked in the extreme. But "honest money" has bartered his soul for a job of crumb-picking so many times he thinks it saved. He will have plenty of chances before the campaign is over to expose his honest (?) manly countenance to the gaze of his fellow-citizens, and the friends of bimetalism are prepared to meet him on any field and give him his choice of weapons—personalities or principles.

Silver Output.
"The United States shared in the general increase in gold production, the increase being shown in nearly all the gold-producing states but coming principally from Cripple Creek and other new camps in Colorado. The gain in the quantity of petroleum and especially the phenomenal increase in its price, was one of the great features of the year. The steady increase in gold production since 1892 was kept up during '95, increasing from 1,018,816 ounces in 1894, to 2,273,629 ounces in 1895, the valuation of the latter being \$49,900,000.

Silver production fell to 47,000,000 ounces from \$9,501,122 ounces in 1894, with coinage values respectively of \$601,706,300 and \$640,000,000.

Directed Upon Persons and Things by the Good Natured Man. Gold only as money won't do.

THE ONE CENT DAILY advocates union and harmony.

It circulates—silver and the only Oregon silver daily.

Mayor Tooze is a good manager of single standard politics.

The Black Republican cherry crop is a failure in Oregon this year.

The people have no barrel. They have left only hope, courage and patriotism.

The goldites should never overlook the vote of Upper Camas swale precinct.

Cleveland says he won't vote for McKinley. That's one redeeming feature for the Ohio man.

The 1 ct. Daily will have all the news on the great money battle, including the silver news.

Ford has always been known as a silver man. What will it cost to get him to advocate gold monometallism? He can't be bought.

Town boys raised on pies and cakes and bicycles don't always average up with the clod-hopper from the rural districts, said an old Oregonian yesterday.

The bimetalists are thinking of sending for W. H. Harvey, Congressman Bryan or Senator Teller to reply to Speaker Moores, the Salem Sound Money Moses.

Supt. A. N. Gilbert of the Oregon states prison says, on a square issue on the money question McKinley will not carry a single western state. Mr. Gilbert is about right on this.

Some of the gold standard men are asking, why did Ford desert us Saturday night? What is he for, anyhow, gold, silver, or Ford? Try him with a good fee, gentlemen, and see?

John Smith says: "The old silver dollar is good enough without gold redemption. Redeeming all our silver and paper in gold makes gold too scarce and keeps it panicky. Take off the pressure and let silver redeem itself, and gold will be cheaper."

Rev. G. W. Graniss did not go to Union Hill to talk Bimetalism. He says in a card:

I wish I felt myself competent to lecture intelligently upon the much vexed question of the currency, but I do not. I am to lecture at the above named church. My subject is one of which I profess to have some information and clear convictions, namely: "Is Romanism Americanism?"

GEO. W. GRANISS.

A newspaper man on poetry bent, sings forth the following:—How dear to our hearts is the old silver dollar, when some kind subscriber presents it to view: the liberty head without necktie or collar, and all the strange things that to us seem so new; the wide spreading eagle, the arrows below it, the stars, and the words with the strange things they tell; the coin of my fathers, we're glad that we know it, for, sometime or other 'twill come in right well—The spread-eagle dollar, the star-spangled dollar, the old silver dollar, we all love so well.

A redhot crowd, stood under the redhot temperature in front of the redhot red front drug store yesterday, having a redhot silver talk. Amos Strong, who lives on the interest of his money and is a redhot silverbug, was putting redhot facts at "Little Doc Smith," as the Statesman used to call him. "Little Doc" is the ablest redhot goldbug in town since he's elected to the legislature, and that lends additional weight to his opinions. Two or three redhot silverbugs jumped onto "Little Doc" when "Big Doc" Port, of Yew Park, who is a redhot goldbug, came to his rescue. It was a redhot time.

SALEM SCHOOLS.—The appointments of teachers to positions in the various grades of the Salem schools will be determined and made known about August first. Prof. Peebles does not get a large salary as Supt. in Salem, but is giving his closest attention to placing the teachers where they can do the most satisfactory work.

THE MINORITY STOCKHOLDERS

After Messrs. McCornack and Anson

OF CAPITAL ELECTRIC RY.

Local Interests Demanding Anson's Removal.

Following is the close of the petition and order of the court in enjoining the sale of the Capital Electric railroad Tuesday:

"Wherefore, plaintiffs pray that said notes and mortgage be declared fraudulent and void, and that the said decree may be set aside, and that the said execution be recalled forthwith, and that said defendants, McCornack and Knight, be restrained from proceeding with the sale of the property of the defendant corporation and that the said F. R. Anson be removed as receiver, and that a proper person be appointed as receiver, who will care for the business and interests and property of the defendant company in an impartial and fair manner and that said consolidation be declared fraudulent and void, and that an account may be taken of the property and effects of said defendant corporation, and that plaintiffs recover their costs and disbursements of this suit, and for such further and other relief as may seem meet unto this honorable court and agreeable to the principles of equity.

CARSON & FLEMING, Attorneys for Plaintiffs."

Judge Hewitt, after due deliberation, granted the following order in restraint, and service followed upon the sheriff:

"Upon reading the complaint herein and upon hearing John A. Carson, of counsel for plaintiffs:

"It is ordered that the defendants, their agents and attorneys be and they are hereby restrained from selling the property of the defendant corporation, the Salem Street Railway Co., under a certain writ of execution issued out of this court in that certain cause, wherein E. P. McCornack, trustee, is plaintiff and the Consolidated Street Railway Co. is defendant, and also from proceeding further under said writ of execution and the decree rendered in said last mentioned cause until the further order of the court."

One of the minority stockholders expressed himself with a great deal of energy this morning as follows: "The present control has been at Portland. It has been run without regard to Salem interest and Salem people. The rules have been made at Portland and enforced here, regardless of the rights of local stockholders, who believe there has been a deliberate attempt to wreck the property and close it for a song."

"There is about \$30,000 stock held here at Salem. Nearly all of this stock is represented in the injunction suit. The managers have not done the first thing they agreed to when they took charge of the property. The road is all run down, the cars and track nearly ruined. The stockholders at Salem have had no information as to the salaries paid the officials and the receiver, which they believe to be very large. The suit will come up in its regular order. An answer will be filed within ten days and the question will go to trial, whether the property can be forced to the wall and closed out by a big corporation and wreck all the small holders."

RESIDENCE BURNED.—The residence of Geo. Eoff, at the junction of the East Side railroad and the Silver Creek Falls road, was burned to the ground Tuesday forenoon. The fire had caught near the fire and soon spread so as to cut off the well and water supply, and the family were only able to gather and save a part of the household furniture and family valuables. Mr. Eoff only recently had the house insured.

MANY PASSENGERS.—Today the low excursion rates on the boats went into effect, and as a result an unusual large list of passengers boarded the boats for Portland this morning.

HURRAH FOR THE FOURTH.

Goddess of Liberty Elected -- Other Notes.

The committee in charge of the grand celebration, to be given in Salem July 4th, is progressing quite rapidly in its work. For the past few days its attention has been devoted to preparing Marion Square for the accommodation of the thousands of visitors that will be in the capital city on celebration day. The grand stand has been enlarged and the general appearance of Marion Square, has been greatly improved. A beautiful arch has been formed at the southeast entrance to the square. Upon the uppermost surface of the arch is formed the word "welcome."

Miss Jennie Anderson, the Woodmen's candidate for goddess of liberty, proved successful in the contest, receiving 579 votes out of the total number cast, 1018. Miss Lizzie Harrell received 336 votes, and Miss Mollie Creighton 103. From the 1018 votes cast, the committee realized \$50.90, which will be used in defraying the expenses of the celebration.

A large number of volunteer firemen responded to the call of Captain J. H. Haas last evening for a meeting to make the necessary preparation for participating in the celebration Saturday. The old hose cart was pulled down the street, the hose attached and the volunteers worked as they did in the "days of old." The boys will make a good showing on the Fourth, although quite antiquated, this old fire machine would do effective work yet in a fire. Fred Nekperman fell from the cart last evening while the run was being made and the wheel of the cart passed over his foot but Fred did not desert his post of duty.

The floral society met yesterday and agreed to put out a magnificent float. The ladies are now busily engaged at it. The plan is to have a huge pink rose built in the center from which a child is emerging. The corners will be decorated with floral designs, such as butterflies, arches, circles, etc. The horses and harness will be trimmed with pink and white roses, and on the whole it is expected this will be one of the most magnificent floats of the day.

The news of Mrs. Viola Merrifield's death at Aumsville last Tuesday night flew over Stayton almost like an electric flash, for everybody in this place knew Viola and everybody liked her because she was a joyful, genial, good natured girl from childhood, and after her happy marriage to Mr. Merrifield something over six months ago, her home in Aumsville was ever open to her large circle of friends both young and old whom she delighted to entertain, as her mission on earth seemed to be to drive the gloom from others hearts by her own cheerful mood. To the heart broken husband and weeping relatives we extend our most sincere sympathy.

Grand Master Sovereign Will Support a Silver Man.

CHICAGO, July 1.—The executive committee of the national Democratic committee convened at the Palmer house promptly at noon today with Chairman Harrity and Wall, Sheerin, Shierley, Prather and Wallace present. Cable was the only absentee. The committee went immediately into executive session. The silver committee consisting of Senators Jones, Daniel and Turpie, Governors Altgeld and Stone, were promptly admitted. The question of temporary organization was discussed.

The silver men gave the committee to understand, that in case of failure they should consult them in the election of presiding officers, whose views were not in harmony with those of the majority, they would be heard from in the convention.

All the members of the executive committee expressed a desire to preserve the utmost harmony in the convention and among individuals. In this expression they were heartily joined by the silver men, with the reservation that the rule of majority should be made manifest from the beginning. Nothing was said on either side to indicate a preference as to the individuals for chairmanship.
